MONEY FLOW CHART

RECORD KEEPING

Federal Regulations state that Child Care providers must retain records for **three years in addition to the current year**. Records for the current month and the past 12 months must be available for immediate review at the time of a Home Review. Records for the additional two years must be available to the Child Care provider but can be maintained off-site.

The following documentation is required to ensure compliance with record maintenance:

- ☑ Child Enrollment Forms
- ☑ Meal Counts
- ☑ Menus
- ☑ Daily Attendance
- ☑ Point of Service Meal Attendance

You can maintain records electronically and/or in hard copy as long as they are available upon request.

Contacting parents/guardians of enrolled children to verify attendance is often required by MDE, as are unannounced follow-up home reviews. Both of these methods are utilized at ACD to ensure providers are in compliance. You may not claim children who are not in attendance. You may be terminated from the CACFP for claiming children who are not in attendance.
