

GENERAL SAFETY RULES YOU SHOULD TEACH YOUR CHILDREN: PART 2

Safety Rule #6 Never Go Anywhere with A Stranger

Your child should know that no matter what the reasoning, it is not safe to go anywhere with a stranger. Tell your child that if a stranger tells them something like, “Your mom asked you to come with me immediately,” they should stay where they are and shout out for help. Ensure that if there is an emergency, you will always send a family member, like grandparent or aunt, to be with your child and not a stranger.

Safety Rule #7 No One Is Allowed to Touch Your Kid’s Body

This is a very important safety rule for children, and you should teach them about it as soon they can understand the basics. Teach about good touch and bad touch. Tell your child that no one is allowed to touch them in certain places. If anyone else has touched your child, they should immediately shout for help and alert people around.

Safety Rule #8 If You Get Lost, Stay Where You Are

In the event that your child gets lost, tell them it is important they stay right where they are. If they see another parent with a child nearby, they can ask them for help. Your child should stay inside the place and not go out, even with the other parent. The most common places where children get lost are supermarkets. Tell your child that they can walk up to the counter of the store and tell the adult there that they are lost.

Safety Rule #9 Do NOT Share Address and Phone Details With Strangers

Your child should know that it is unsafe to share personal details like phone numbers, address, email, or pictures with strangers. Any information that is shared should only be with your consent or in your presence.

Safety Rule #10 If I Am Uncomfortable I Will Not Do It

No matter what your child may be asked to do, if it makes them uncomfortable, they should NOT do it. This could be something as simple as taking off clothes in front of others and diving in a home pool. If your child is not comfortable about it, no matter how many friends are doing it, your child should not do it at all. .
